NUTRI-GROEI & NUTRI-GROEI +

Your Complete Organic Fertilizer Solution

Introducing **Nature's Kos** chicken manure-based organic fertilizers for a simple, 3-step program to grow strong, healthy, and high-yielding crops.

Nutri-Groei range of products are Class 2 approved organic fertilizers developed for easy application and precision nutrition throughout every stage of plant development. A ready to use chicken manure products that delivers targeted macro- and micronutrients exactly when crops need them most.

Produced using the same advanced anaerobic process as the **Nutri-Groei+** liquid range, the manure is stabilized to ensure plant-safe nutrient levels while being free from harmful bacteria and pathogens. This results in a clean, reliable organic fertilizer, farmers can trust to use immediately.

Step 1 @ Planting

Nutri-Groei (solid) is a planting-stage fertiliser formulated with a balanced NPK profile and essential micro nutrients to support strong germination and early root development. Its starter-focused nutrient balance promotes uniform seed emergence, improved root establishment, and healthy early plant growth, creating a solid foundation for vigorous crop performance throughout the growth cycle.

Available Format & Coverage

- NG (wet)
- NG (dry)
- NG (pellets) 7.5g/plant
- NG (granules) 7.5g/plant

Application

- Broadcast Spreader
- Furrow placement
- Seed drill
- Soil mixing

Organic NPK:

Nitrogen(N)	Phosphorus(P)	Potassium(K)
2.02%	0.83%	1.32%

Supplied

- NG (wet) sold in tons only
- NG Dry, pellets & granules sold in 2kg, 5kg, 110kg, 20kg, 1ton bags

Step 1 @ Planting Step 2 @ new plant

Nutri-Groei+ is a vegetative-stage liquid fertiliser formulated with elevated nitrogen levels to support rapid root, leaf and stem development. Its growth-focused macro and micro-nutrient balance promoting strong canopy formation, building the foundation required for successful flowering and optimal yield potential later in the crop cycle.

- Liquid 300l/hectare

- Drip Irrigation
- Boom Spraying
- Foliar application
- Soil drenching
- Tank mixing

Nitrogen(N)	Phosphorus(P)	Potassium(K)
3.01%	0.04%	0.02%

- in 2l, 5l & 20l plastic jerry cans
- in 640l & 1000l IBC
- in 35000l tanker loads, for on site dispensing

Step 3 @ budding and early flowering

Nutri-Groei+² is a bloom-stage liquid fertiliser formulated to support flowering and bud development. Its targeted balance of phosphorus and potassium, supported by essential secondary and trace nutrients, promotes strong flower formation, improved fruit set, and higher crop yields while maintaining overall plant health.

- Liquid 300l/hectare

- Drip Irrigation
- Boom Spraying
- Foliar application
- Soil drenching
- Tank mixing

Nitrogen(N)	Phosphorus(P)	Potassium(K)
0.66%	0.18%	0.43%

- in 2l, 5l & 20l plastic jerry cans
- in 640l & 1000l IBC
- in 35000l tanker loads, for on site dispensing

Optional Step 4 @ anytime during plant growth

Nutri-Groei+^{NB} (Nitrogen Boost) is liquid organic ammonium sulphate solution formulated to deliver a readily available nitrogen boost during critical growth stages. Designed to stimulate rapid vegetative growth, enhance chlorophyll production, and support strong canopy development, it helps correct nitrogen deficiencies quickly and effectively.

- Liquid 300l/hectare

- Drip Irrigation
- Boom Spraying
- Foliar application
- Soil drenching
- Tank mixing

Nitrogen(N)	Phosphorus(P)	Potassium(K)
7.23%	0.01%	0.02%

- in 2l, 5l & 20l plastic jerry cans
- in 640l & 1000l IBC
- in 35000l tanker loads, for on site dispensing

Proven Performance

At **Nature's-Kos**, we believe in testing our products where it matters most, in the field. That's why we've established a dedicated trial hectare in South Africa's renowned maize triangle, working closely with local farmers to best understand the fertilization practices and see how the **Nature's Kos** range of organic fertilizers compare. Visit our website to see results of our trial, the result will shock you.

- All transport cost to be borne by Client/Customer/Farmer
- all prices are ex VAT.
- It must be noted that VAT registered Farms will not be charged VAT, as fertiliser is a zero rate input product for large farming
