NUTRI-GROEI

Nutri-Groei (solid) is a Class 2 approved fertilizer derived from sustainably sourced chicken manure, formulated specifically for the planting stage. It features a balanced NPK profile and essential micronutrients to stimulate soil microbial activity and provide a consistent, slow-release nutrient supply.

Designed with a starter-focused nutrient balance, **Nutri-Groei (solid)** supports strong germination, uniform seed emergence, improved root establishment, and healthy early plant growth. By enhancing early root development and building soil biological activity, it creates a solid foundation for vigorous crop performance throughout the entire growth cycle

Produced using the advanced anaerobic process, the manure is stabilized to ensure plant-safe nutrient levels while being **free from harmful bacteria and pathogens**. This results in a clean, reliable organic fertilizer that farmers can trust for immediate use.

Product range

				
	(wet)	(dry)	(pellets)	(granules)
Description	contains 40% moisture	sun dried product that contains 2% moisture.	compacted pellets with 0% moisture	granules formed with a pan granulator and 0% moisture
Application	- apply 2-5tons /ha - via a spinner/boardcast spreader to cover the entire field	- apply 250g per m of lane - via a furrow placement or seed drill - apply 100g per kg of soil - mix with soil to create a potting mixture	- apply 7.5g per plant - via a furrow placement or seed drill - dropped into the seed hole	- apply 7.5g per plant - via a furrow placement or seed drill - dropped into the seed hole
Sold in	packaged in 1ton bags	packaged in 5kg, 10kg, 25kg & 1ton bags	packaged in 5kg, 10kg, 25kg & 1ton bags	packaged in 5kg, 10kg, 25kg & 1ton bags
Pricing	cost per ton R1310/t or R1050/20t or >	cost per kg R2.60 Bulk cost R2150/20t or >	cost per kg R5.20/kg Bulk cost R2950/20t or >	cost per kg R5.20/kg Bulk cost R2950/20t or >

Applied to

Vegetables Crops

- Tomatoes
- Peppers
- Cucumbers
- Leafy greens

Beans & Seed crops

- Soya
- Sunflowers
- Green beans
- Peanuts

Grain Crops

- Maize
- Wheat
- Rye
- Barley
- Sorgham

Fruit & Other crops

- Strawberries
- Citrius
- Melons
- Plums & others
- Cannebis
- Grass

NG Organic NPK Range:

Nitrogen(N)	Phosphorus(P)	Potassium(K)
2.02%	0.83%	1.32%

Proven Performance

At **Nature's-Kos**, we believe in testing our products where it matters most, **in the field**. That's why we've established a dedicated trial hectare in South Africa's renowned maize triangle, working closely with local farmers to best understand the fertilization practices and see how the Nature's Kos range of organic fertilisers compare. Visit our website to see results of our trail, the result will shock you.

- All transport cost to be borne by Client/Customer/Farmer
- all prices are ex VAT.
- It must be noted that VAT registered Farms will not be charged VAT, as fertiliser is a zero rate input product for large farming
